

HUBERT VON GOISERN  
LINZ EUROPA TOUR 2007 - 2009

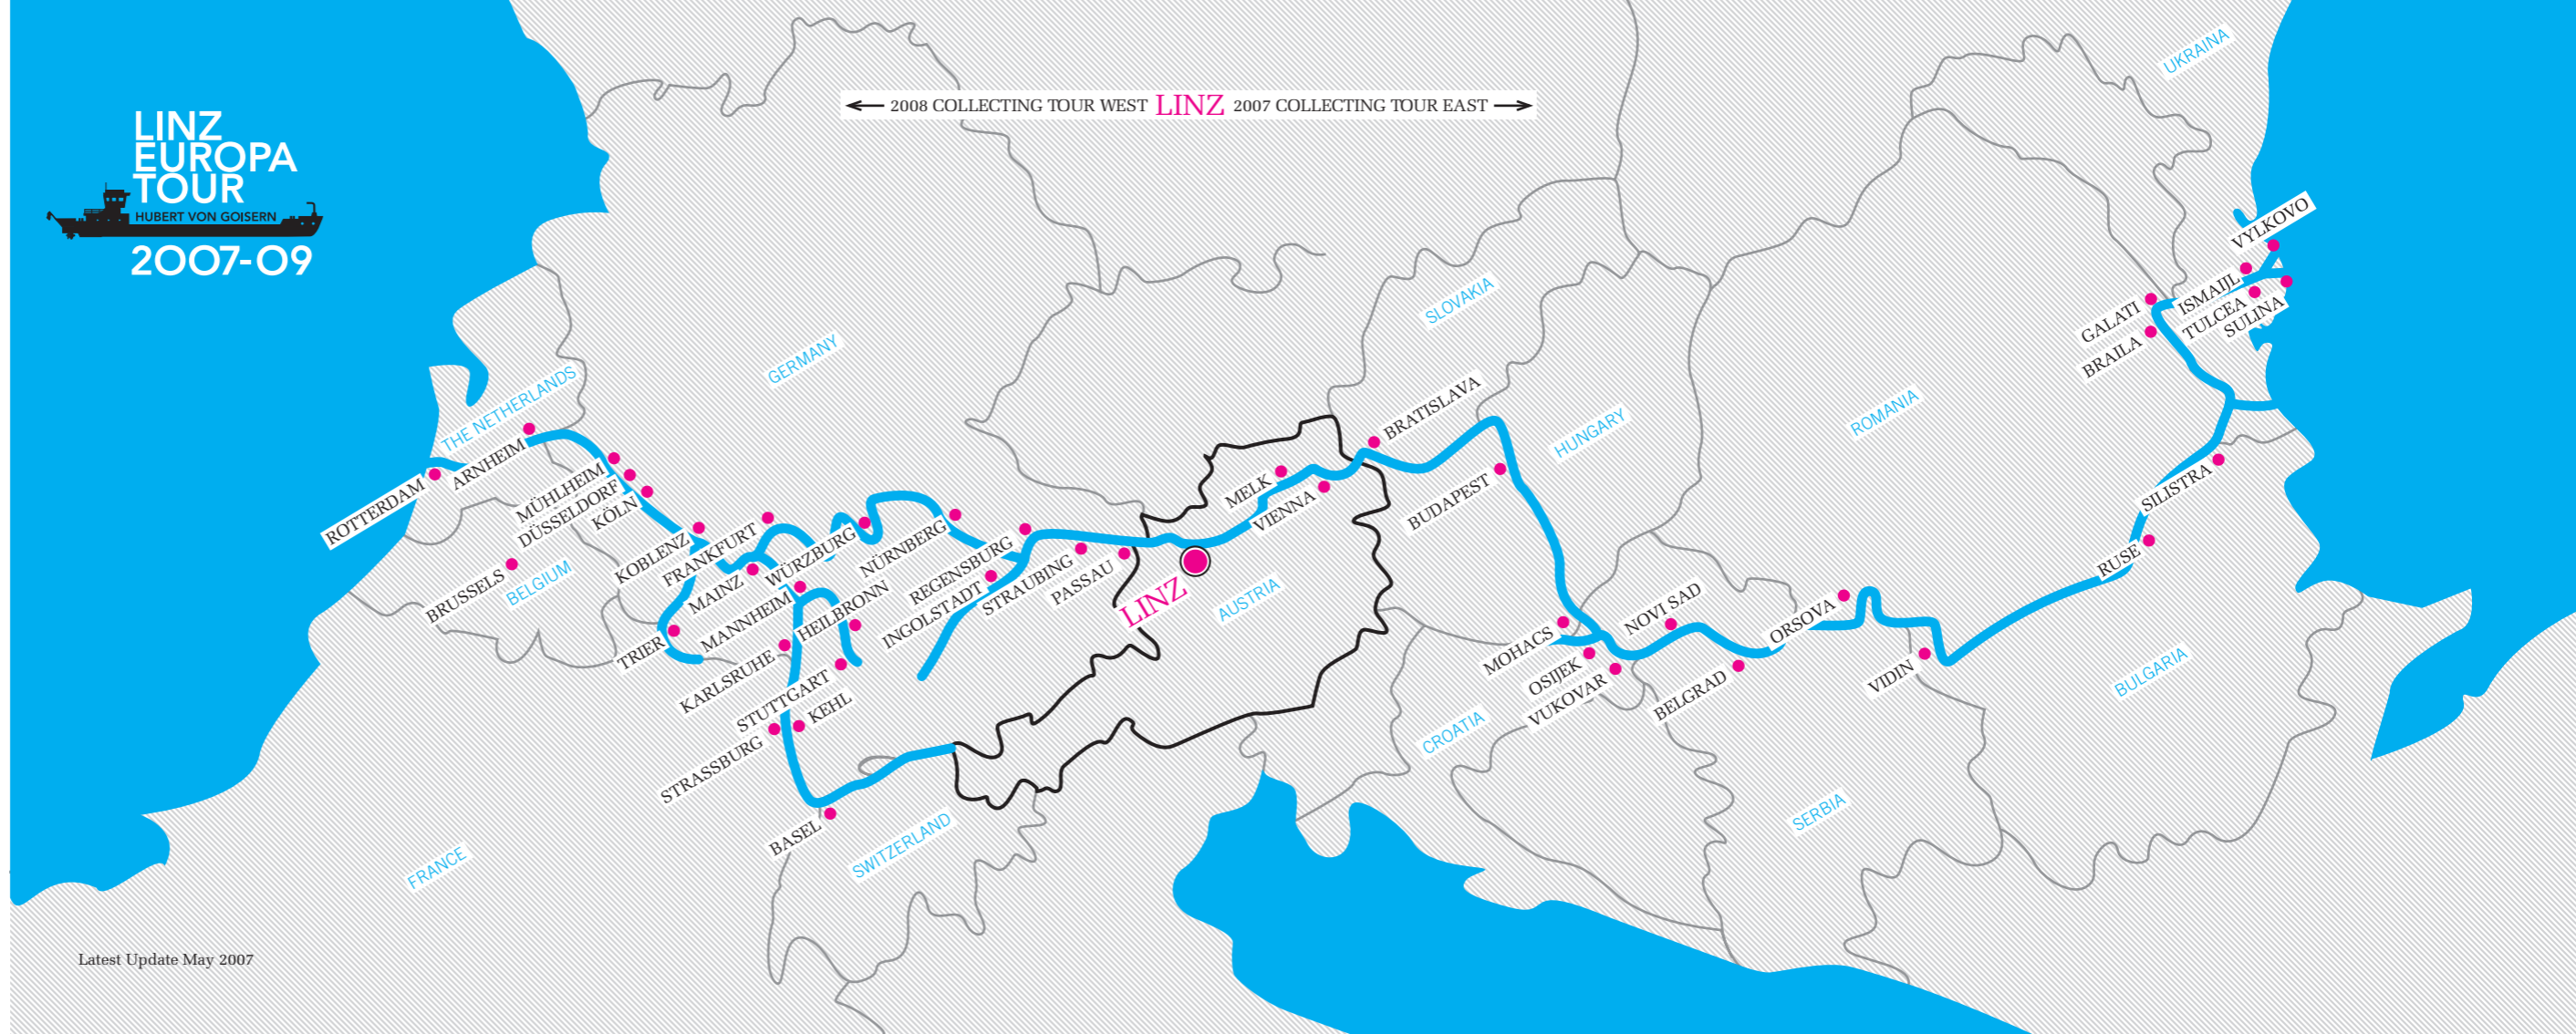

## LINZ IS ON THE WAY TO EUROPE

A European adventure: Hubert von Goisern is taking his act on the river road between the Black Sea and the North Sea. As roving goodwill ambassador of Europe's 2009 Capital of Culture, with Linz as his home port. A small flotilla of ships will serve as a floating stage and provide quarters for the whole tour crew. The guest list includes artists from all of the countries the Linz Europa Tour will be passing through.

In 2007, the journey heads east to the Danube Delta and features 22 concerts at venues along the Danube, the final one in Linz on September 1. In 2008, Hubert von Goisern will be taking the river roads west with Rotterdam as his final destination.

In 2009 a multi-day Harbour Festival in the European Capital of Culture Linz will unite all the artistic collaborators from east and west in a very special concert experience.

## DIVERSITY AMIDST LIFE

“The Linz Europe Tour is a wonderful opportunity to explore European reality.

For once, political position papers and administrative files aren't what counts. Hubert von Goisern seeks diversity as it's actually lived out in everyday life, using artistic means and towards artistic ends. A wide array of values and images – as well as the roots we have in common and the experiences we've shared – will leave indelible impressions on the music of his journey.

Could Linz as future Capital of Culture wish for anything better than this expedition?”

*Martin Heller, Artistic Director Linz09*

## MUSIC WITH ROOTS IN TRADITION AND IN THE FUTURE TOO

“We're setting sail to make Europe's rivers resound. My music has always made an effort to express what forms us – our heritage and our identity, but also what we encounter when we look into the future. That's why the musicians we'll be playing with represent both particular traditions as well as an open approach to dealing with them.

This tour through Europe will differ from journeys I've gone on in the past: It seeks to discover what we think we're already familiar with.”

*Hubert von Goisern*
